

Kids' English Camp in the Czech Republic

Kids' English Camp Chotěboř is a residential camp run for one week every summer holidays in the Czech Republic. It is a bible camp as well as an English teaching camp. The draw of hearing English and being taught pronunciation from native English speakers overcomes many parents' indifference towards sending their children to a bible camp. The camp is run by a church plant in the city of Chotěboř and supported by the parent church in the nearby village of Horní Krupa.

The website for the local youth group is www.velryba.g6.cz and the website for the parent church is www.cb.cz/horni.krupa

This year the camp runs from the 11th to 18th August, we have already had one new volunteer this year which is wonderful, but we still have room for another person. If anyone is interested no teaching qualifications are needed; just a passion for Jesus, a love of children and an ability to adapt to new situations.
